HONGKOLO, A HURSDAY, NOVEMBER 17, 1898. NOTES AND COMMENTS.

The secret treaty existing between Russia and China which is referred to by our Tientsin correspondent in the special stelegram which we publish to-night is reported to be as follows: -

Until the legiganiza lob of the Chinese army grid . Ave it co pleas, China shell have the assistance of the Regulen samy and ravy/for defence to east of emitigency. In such case, the command of the grown and cave shall temath in the hands with Ray Linefficter. The Chi ese Government shall make proper recuriting a michantal in to the Russian army and rawe when their services the required. The communicieral the Russi o Army it Lindlung now situated to the W. of the Locchoon is and P rt Aither th 31 held Elm-elf at the orders of the Thine e Government, and may be called

upon to readiress litercent any time. Rumous of such an arrangement have been in the air for some time past and the fact of the Russians having increased their already large guard at their Legation at Peking lends colour to the reports which have now been confirmed by our Tientsin correspondent."

Russia and China exists, it is evident that the force under Russian officers stated to have been ordered to Shanghaikwan has beer asked for by the Empress Dowager and a possible explanation of such action may be found in the objections made by Sir CLAUDE M'ACDONALD and the German troops around Peking. It may be that this concentration of troops at Shanghaikwan is intended as a set-off to the withdrawal of the Peking force to show the European Powers that China is determined to concentrate troops somewhere ! if not in the immediate neighbourhood of the Capital. The troops being under Russian officers points to an ther breach of faith on part of China and looks as though the re-organization of the army and navy was about to be placed in Russian hands instead of British, the few troops granted at Lord CHARLES BERESrong's request to be trained by British officers probably being but a sop thrown to the lion.

circumstances, for this action on the part I all the Powers, including England, has been of China, if allowed to continue unchecked. cannot but result in loss of influence and the closing of the door against British trade. Russia is playing a deep game and evidently aims at getting China completely under her thumb and excluding all other Powers but her particular allies until the time is ripe for China to be absorbed neck and crop into the Russian Empire and cease to exist as a nation. It is evident that a deal more has been-known to the naval authorities of the trend of events than the public have been aware of, for the latest advices from Wel-hai-wei state that the British sleet there has been kept cleared for action since the beginning of the month, while all superfluous woodwork, including the fittings of the officers cabins, has been ready to be sent ashore at a moment's notice so as to have the ships as clear of lumber as possible.

This evidently shows that With reference to the application of Inspector trouble is anticipated and that it is con- Warson (Inipicior of Markets) for an allowance sidered better that the expensive plant of \$30 in lieu of quarters which were reported to should be stored, here instead of being left be unfit for European habitation, the Girernunerected at Wel-hal-wel where it would ment has delded that Inspector Wa'son should be liable to be damaged in the event of hostilities commencing. Our news of events in the north is a trifle vague at present, but it is evident that some vigorous Ar Omdumin Lieut. Wormald, of the 7th further tidings with interest.

The Singapore Free Pres; makes the following suggestion for an Interport Shooting shield:-

With reference to the Inter-Colonial Rift: Match, we might orce more bring to the sportloving community of congkong and Shanghal the sug estim, so then beenight forward in the mitch. Supposing each community werd to fied, say \$5.00 or \$1,000, a really handsome allver shield could be acquired, to be held for a year by the winning team or the chief civil raight be determined. There might be a margin | left over to cover cost of luxurance and transit, The skield would bear on margical medallions the names of the winning teams and their scores, Hongkone, as the most frequent winner, and the large it shooting centre, ought to take the Initiative. Would MajorSir John Catilogion oblige?

This game was played yesterday and tesulted In a win for the V.R.C. by one goal to nil, The Recreation man were consequently very pleased with themselves for though the clab did

not put on their strongest team the one selected was by and means werk and was considered quite good enough for its purpose. Just at the start of the game the elder Holmes was injured, through collision with Carvalho, and had to bu carried off the field, which left the club with ten men throughout.

Not withstanding this hand/cap they were considerably the stronger in the first half out could do nothing owing to great weakness forward and strong defence of Breit, the opposing govikeeper. They had the ball through once but the point was disall wed as the ball had previously been out of play. At ball time neither team bad acored. In the second portion the play was fairly even but both sets of forwa de shaped hadly near goal. As the time wore on the Reciention men seemed to put more vigour into their work and one of their attacks resulted in Taylor putting in a shot from close quarters with which Davies had no chance, This proved the only goal of the match and the whistic sounded with the result.

LIABILITY OF CHINESE SHARE HOLDERS IN RESPECT OF

In the minutes of a missing of the committee of the Shanghit Coxmiter of Commerce held of the 8 h Navembre the following appears ;-The Bink of Chiva. Topan and the Stratts. Ld', (In I'd) and Chinese Shareholders : -1 letter from the Maragger of the Bank of China and lanun, Id., was rold calling the attention of the Chamber to the judgment in the case litely third that had been delivered by the Tantal. It was decided to reple that the Committee had dist no time in dealing with the mat er, having add eis id a letter on this subject to H.B M. Wilderer on the 31st ultimo, as being the Representative of the plaint fit in the case, and switch an entworfrom Peking. On receipt of this the Committee would futher communicate with the Manager of necessary. It was further decided to send to the Hongkong Chamber of Commerce a copy of the letter addressed to H.B M.'s Minister, and to ask them to support the ration of the Committee.

The following is the latter to the Minicer;-Shanohal, October 31st, 1808, Sir.-The Committee of the Chamber derire to draw the settous attention of Your Excellency to the ladgment delivered by the Tantal of Shaphal in the case of the Bank of China, Jepan and Straits, Limited (in ifquidation) versus certain Chinese shareholde a. A copy of the ladgment in question is enclosed herelo, its perusal reveals statements as startling as they may be furreaching the business relations between foreigners and Chinese.

With much plausibility and show of authority, it is asserted that under the existing treaty between Grest Beltuin and China, all sulta taken by Billish subjects against Chinese are to be decided solely by Chines- law, and in the particular case at issue it is held that a native proprietor of shares in a B-ltish Limited Liability Company cannot be compelled to pay calls thereon. With much speciousness the call In question is termed by the Taotal "extramoney," a misleading and mischievous term, for as a maiter-of-fact the call is on shares not fully poid up, and convequently within the limit of the liability of the shareho der.

The effect of this judgment if upheld cannot but be to relieve Chinese of all liability on shafes not fully paid, and to destroy the security of "uncelled liability," which in many public Philadelphia with reliway material, including Companies, specially Interance Offices and Banks, has hitherto been the finar clai guarantee. of the policy bolder or depost or respectively. The effect of the julyment is even more farreaching, for if so-called Chinese Law is to be held good for every native defendant, it may relieve unscrupulous tenaris, and render nugetory agreements and contracts of every kind !

A foreign defendant sued by Chicese might, according to the Taotal's interpretation of Art. 2, Clause 3, of the Chelon Convention, be liable under British law for compliance and responsibilities which the mative would be free from, and in the absence of any Chinese Code of Law it seems preposterous to suppose that the Article and Clause in question were latended to over-ride the principle clearly laid down in Article 16 of the Treaty, viz, that "I Justice should be equitably and imparisally administered on both sings,"

The Committee of the Chamber specially address Your Excellency as the representative of based decision, and sincerely, trust you may see your way to make a decided representation to the Tsungli Yemen on the inequitable judgment to which we sak your attention. . I have the honour to be, .

Your Fxcellency's obedient gerwant,

E. F. ALVORD, Chairman.

CHINESE AINT'S COTE!

A lady living not more than a thousand miles from Shanghel bad a gardener, and during last month one duck, one chicken, and one pigeon were stolen from her mouler yard. She missed other things and, suspicion falling on the gardener, he was discharged at the end of the month, and, as the poultry was distinctly under ble care the same was deducted from his wages and he was given the epilon of seplacing them and receiving the money. Yesterday morning, between the hours of ten and eleven, up turned the gardener," smolling a big smolle," with a duck, a chicken and a pigeon. The lady of the bouse thought she recognised the birds, and the poultry yard and count what were there; when it was found that a duck, a chicken and a pigeon had been abstracted since they were fed in the morning.
